## Bloom Beats Chatfield For Lieutenant Governor; Many Democrats In Saddle In Various State Offices

### 226 REPUBLICANS, 206 DEMOCRATS IN HOUSE; SENATE STANDS 53 TO 42

WASHINGTON, November 10.—(By the Associated Press)—There will be twenty more Republicans than Democrats in the next house of representatives and eleven more Republicans than Democrats in the new senate, unless results indicated by practically complete returns are overturned. In the house the Republican majority over the combined Democrats and scattering vote will be seven, while in the senate it will be ten. In the present congress, the Republicans have a house plurality of 156 over the Democrats and a majority of 165 over all. In the senate the Republican majority over the Democrats is 21, with no scattering votes.

#### HAMBONE'S MEDITATIONS

By J. P. Alley

HEY WOULDN' BE 50 YEARS FOLKS NUSSIN' DAWGS OF ALL DEM DAWGS HAD DEY RIGHT-FUL SHEER O' FLEAS ON 'EM!

COLUMBUS, Nov. 10.—(By The Associated Press)—The proposed constitutional amendment which would have legalized wine and beer in Ohio was turned down by a majority of 187,854, according to complete unofficial returns from all counties of the state tabulated today by the Associated Press. The total vote on the proposal was: For adoption 710,564; Against 898,218.

COLUMBUS, O., November 10.—(By the Associated Press)—Definite settlement of practically all contests in Tuesday's election, today found considerably more Democrats holding places in the state and national governments than they have since the Republican landslide of 1920, which left the followers of Thomas Jefferson only a meagre representation either at the state capital or in the congressional delegation at Washington.

Specific results of the Democratic efforts to stage a comeback in Ohio, were the election of A. V. Donahy, as governor, the election of Earl D. Bloom as lieutenant governor, the sending of six Democratic congressmen to Washington to replace an equal number of Republicans and a slight increase in the number of Democrats on the rolls of the state senate and house of representatives.

To offset this, however, Allee Pomerehne, prominent in his party's councils and mentioned as a presidential possibility in 1924, was defeated in his fight for reelection to the United States senate.

Republicans also were finding solace in the fact that the state legislature still remained preponderantly Republican. Democrats expressed gratification in their accomplishments, but they were alone in their jubilation, for Ohio women's organizations and the Anti-Saloon League were pleased with the outcome.

The election of Columbus Mayor Judge Florence E. Allen, of Cleveland, to a seat on the Ohio supreme court bench, the placing of six women in the general assembly and the election of numerous others to county offices, all were regarded as a triumph for the initial fight of women for places in the government.

### WOMEN, END WAR!

BY MRS. WINIFRED MASON HUCK  
Congresswoman-at-Large from Illinois

The next 50 years will see an end of all war. Women and mothers will accomplish that. They have sickened to death of sending their sons and offspring to be fed into the maws of cannon. They represent a new intelligence which is just dawning and will soon make itself felt upon the affairs of the world. War is only justifiable in event of direct and unwarranted attack.

### Hundreds Made Mistakes In Voting On Beer

YOUNGSTOWN, O., November 10.—(By the Associated Press)—Investigation of a lone dry vote cast against 128 wet votes in one of the East Youngstown precincts in Tuesday's elections disclosed that the "dry" vote was cast by a man who was somewhat under the influence of liquor. He was arrested shortly after leaving the election booth and told the officer, triumphantly that he had voted "no" against an attempt to make East Youngstown dry. ### KEMAL DEMANDS ALLIES EVACUATE CONSTANTINOPLE

ATHENS, Nov. 10.—(By The United Press)—Mustapha Kemal today sent a note to the allies insisting that they evacuate Constantinople immediately, according to dispatches received here. Italian subjects living in Constantinople already have started embarking.

LONDON, November 10.—(By the United Press)—When the British cabinet met this morning it was stated that an official dispatch from General Harrington had come through from the near east, despite the cutting of the cables by the Turks. The British commander in the Dardanelles advised the cabinet the situation is most serious. British air experts were called in to answer questions about possible military moves against the Turks. Airplanes are expected to play a big part. If war breaks out, Bomar Law, who presided, declared the Turks sought nullification of the treaties of Mudros and Sevres. They have agreed to abide by the armistice treaty of Mudros, at the same time exceeding its conditions and seeking to drive the allies from the vicinity of the Straits. The Turks were quoted as saying: "We shall ignore the situation entirely. For as they do not exist. This is our country (referring to Turkey in Europe) and we shall administer it as we like."

PARIS, November 10.—(By the United Press)—Marshal Foch allied commander-in-chief during the war, today conferred with Premier Poincare, regarding military measures to be taken in view of the near east crisis.

LONDON, November 10.—(By the Associated Press)—One government official went so far however to say the Turkish situation was "ominous" and that nothing had been received indicating that conditions were any better.

CONSTANTINOPLE, November 10.—(By the Associated Press)—The allied high commissioners (this afternoon) handed a note to the Angora government representative here demanding the repeal of all measures relating to the customs, the public debt and the sanitary and other services which conflict with the capitulations of the Mudros armistice agreement of 1918.

Otherwise, says the note the commissioners will be compelled to refer to their governments for necessary action. The allied generals also arranged a meeting with Rafet Pasha, the nationalist governor here, to whom they will submit minimum demands with a view to insuring the safety of the troops and efficient control of the police and gendarmerie. The commissioners will discuss the situation at Chanak consequent upon the Kemalists' encroachment upon the neutral zone.

**The Significance Of November Eleventh**

Each year makes Armistice Day more a thing of the past, a page of history overshadowed by the forgetfulness that time brings.

Once a year on the anniversary of the first Armistice Day, may these dim memories grow bright, and may we renew our allegiance to the principles of universal peace founded on democracy, for which the manhood of many nations went forth to war.

This store will ask permission of the trade, to suspend business momentarily for at least two minutes, promptly at eleven a. m. and let's all bow our heads in silent devotion, as a mark of respect to our world war deceased.

## Secretary Of State Orders Pike County Ballots Counted; Republicans Making Effort To Have Them Thrown Out

WAYERLY, Ohio, Nov. 10.—While no legal steps have been taken yet, numerous contests resulting from the vote cast in Pike county in Tuesday's election loomed on the horizon Friday when it appeared certain that Republican candidates defeated by slim margins on the face of the unofficial returns will seek court action in an effort to throw out the ballots in several precincts for alleged fraud and irregularities in connection with the counting of "Absent Voters' Ballots."

After being demitted for two days over the counting of "Absent Voters' Ballots" the County Election Board started on the canvass of the official vote Friday when Secretary of State Smith is said to have ordered the count to proceed, instructing the officials to take up each of these ballots separately and decide upon their admissibility and to keep them separated after being counted, in case of contest.

The county election officers also became involved in a dispute over the counting of the ballots cast in Peelle township because the Republican precinct officials there refused to count the ballots and certify to the poll books by reason of the contention that sixty-two absentee ballots challenged by them had been placed in the ballot box. Secretary of State Smith is said to have settled this squabble by ordering the votes counted. But Republican leaders still insist that all the votes cast in the precinct should be thrown out and a delegation of Republican candidates went to Columbus Friday to confer with Attorney General Price and Secretary Smith in respect to the matter.

The county board has 175 absentee ballots sent back to the officials of the various precincts over the county because of challenges by the Republicans and should these be thrown out besides Peelle township it is claimed that the Democrats would save but two candidates on their county ticket, Winn for Representative and Penn for clerk of courts.

On the face of the unofficial returns Donahay, Democrat, was given a majority of 500 over Thompson, the vote being 3425 for Donahay and 2925 for Thompson.

### Legion To Attend Armistice Day Services

The church will be decorated with the national colors and the ex-service men of the church will wear the uniform and usher at both the Sunday school and morning worship service. A special program has been planned for the closing period of the Sunday school and at the morning service the pastor will speak on "The Most Conspicuous Symbol of the World War."

At the evening service patriotism will again be the central theme. A pantomime selection, "O Columbia the Gem of the Ocean" will be rendered by Misses Clover White and Ella Carson. The minister's subject will be "The Christian's Armor" and patriotic songs will be sung by the chorus choir and congregation.

### Gun Victim Better; Mallory To Get Hearing

Jack Baker, South Portsmouth man, who was shot in the abdomen Saturday evening while on the platform of the C. & O. station at South Portsmouth, is improving slowly in Schirman hospital.

E. Dewey Mallory, former special officer for the C. & O., who is charged with the shooting, remains in the Greenup jail waiting for an examining trial. He is charged with shooting at and wounding Baker. Mallory is expected to rely upon a claim that he shot in self-defense.

The examining trial will be held in a couple of days before County Judge L. E. Nichols. Mallory seems to be satisfied to remain in jail until the time of the trial and has not made a request that the examining trial be hurried. County Attorney Glen Miller has been waiting until he knew the outcome of the wound suffered by Baker.

### Volstead Fears Period Of Lax Enforcement

GRANITE FALLS, MINN., Nov. 10.—By the United Press—"A period of lax enforcement may follow the 'wet' wave that swept the country Tuesday," Andrew J. Volstead, "father" of the dry enforcement act and defeated for congress told the United Press today, but the eighteenth amendment will always remain in the constitution of the United States," he said. "Fundamentally the people of the United States are against the saloons. They have seen enough of intoxication and strong liquors." Congressman Volstead will remain in Granite Falls following defeat in the seventh district by Rev. O. J. Kvale.

BENSON, MINN., November 10.—By the United Press—"Dry enforcement was not even an issue between myself and Mr. Volstead," said Rev. O. J. Kvale, congressman-elect from the seventh district.

Rev. Kvale let it be known that he is just as "dry" if not "drier" than the "father of prohibition" to whom sent his congratulations. "I was elected on an economic issue," said the Norwegian-American pastor. "Prohibition enforcement would never have been mentioned in my campaign if my opponent had not introduced it. Then I had to show where I stood."

## Clemenceau Sails For America Tomorrow Happy In Spirit Of Adventure; Past Eighty

PARIS, November 10.—(By the Associated Press)—Georges Clemenceau sails for America tomorrow, happy in the spirit of adventure. Considering his great age, he was eighty-one last September, the eagerness with which the Tiger of France anticipates the experiences that are soon to come to him, in the United States, is quite touching to those who see him and talk with him. He talks of the present and the future in the manner of a man in middle life; he refuses to be reminded of his age.

"I never was much of a chap for the past," Clemenceau remarked to the correspondent, who inquired about the former premier's earlier visits to the United States. "This is not his second trip to America, as is commonly supposed, but his third. In conversation Clemenceau seldom alludes to his experiences in America, first as a young gentleman of leisure reading extensively for two years in the libraries of New York, and then as a teacher in a girls' school in Connecticut. It was during his days as an instructor at the girls' school that Clemenceau met the young woman who became his wife. His stay in America gave to the Tiger that knowledge of English which has been one of his most useful accomplishments in his long public career. Always he has taken pleasure in the language and in its literature.

"My intentions in going to America are good, I feel sure of that," the aged politician said. "I see with considerable clearness how it will be to the material and moral interests of the United States to examine European difficulties with other conceptions than those they have at present. Clemenceau expects to enlarge his own judgments of European situations by putting his ideas into contact with American views. He does not go to New York with his mind made up and closed as to what would be to the mutual and collective advantage of the United States, France and Europe generally.

"I shall talk about the League of Nations, but I have no specific advice to offer," he remarked. "I believe in the idea of the league. The world must have something of the sort. I do not say that the league as it now exists is what Americans should adopt. It does not satisfy me, but I am for the reparations."

"I shall of course have nothing to say about America's interior politics. I think of the American people; I never separate Americans into categories or undertake to classify them," Clemenceau added.

## Ferris Plans To Oust Newberry From Senate

BIG RAPIDS, MICH., Nov. 10.—Woodbridge N. Ferris, Democratic senator-elect from Michigan, plans to "do what one man can to oust Senator Newberry from the Senate," he announced here today.

Criticism of what he termed "Newberryism" was Mr. Ferris' chief campaign argument and his election he declared, made it his first duty, "to straighten out this matter."

My first official act will be to begin steps for a re-hearing of Mr. Newberry's case," he said. Although he will be a newcomer at Washington, Mr. Ferris does not "intend to keep still, as is the custom of new members," he said.

"The only way they can keep me quiet is to chloroform me. It will be impossible for me to keep still for six years."

The Senator-elect referred to published criticism of his campaign funds, denying that Henry Ford bore a part of his expenses.

### THEATRICAL

At The Sun Next Tuesday, Matinee and Night

The Epitaph Company will cordially tender the production of "Hollywood and Harris," "Three Little Queens" of musical comedy, "Sally, Irene and Molly," which has the distinction of being the most liberally patronized musical comedy of the day. A reason for the unusual success of this multiple song and dance wheeze can be found in its pure, unadorned fun. Fun of the right sort—that forces hundreds of hearty laughs but brings nary a tinge of blush.

Williams, the diminutive comic and eccentric dancer, heads the cast. He never "misses fire" with an audience.

PAULMER'S "SHOW GIRLS" OFFER GOOD COMEDY  
Paulmer's "Show Girls" at the Sun Theatre are presenting a clever farce comedy entitled "The Dashing Widow." It is one of the cleverest little farces that has been offered at the Sun for some time.

The work of Frank Tunney and F. T. Bales kept the audience roaring all the time.

Low Palmer and Grace Bennett as the "Widow" have some clever lines and know how to put them over. New songs and dances and new musical numbers by Cuzco with his accordion came in for rounds of applause.

Feature number two on the program is the Universal Super-Special picture, "Broad Daylight."

## B. AND L.'S SHOW SUBSTANTIAL INCREASE

Despite the so-called hard times of the last twelve months, building and loan associations in Scioto county have shown a gain in assets of \$170,801.83, according to figures just announced by State Superintendent of Building and Loan Associations, John W. Prugh.

In speaking of the record made by building and loan associations of this county during the last year, Mr. Prugh said that they have demonstrated their worth to their respective communities in a very material way, inasmuch as progress was made at a time when losses were being

shown in many other lines of endeavor. He said that despite the smaller incomes of the people of this community they have become more thrifty and were saving more money per dollar earned than they did during the prosperous days of war times.

The gains made in this county, according to Mr. Prugh, indicate that there is less money being invested in securities of doubtful value and that more money is being placed in local financial institutions of recognized safety.

The five building and loan associations in Scioto county now have assets of \$6,455,005.51 as against \$6,075,044.68 a year ago.

Despite the fact that gains were shown by building and loan associations, the great demand made upon them for money has kept them loaned up to the margin, and all the institutions, not only in this community but throughout Ohio, could use millions of dollars more for home loaning purposes.

The building and loan savings associations in this community contributed their part to the great fund that was used in financing the wonderful building boom that is sweeping over Ohio on a scale never before approached in the history of the Buckeye state. This boom will be continued throughout next year, if the building and loan associations are able to secure enough money with which to finance the demand for home loans.

# Political Aftermath In Pike County

PIKETON, Nov. 10.—In the face of opposition from two sources, Harry L. Foster, the present Republican representative from Pike county, and Joseph H. Smith of Waverly, the Independent Democratic candidate, Robert S. Wynn, the Democratic organization candidate for representative, led the Pike county Democratic ticket, with the exception of one man, to victory at the polls Tuesday. Mr. Wynn rolled up a big majority over Foster in Foster's home town, Waverly, and led the Democratic candidate for Governor, A. V. Donahay, by twenty-seven votes in Pike County, the largest Republican precinct in the county. Mr. Wynn displayed good running form in every precinct in the county and came to the wires with the substantial majority of three hundred and forty-eight votes over his nearest opponent, the present incumbent, Harry L. Foster, Republican of Waverly. Political "doctors" in Pike county had picked Wynn as a winner but he exceeded the most sanguine expectations and ran one hundred votes ahead of his ticket. Joseph H. Smith of Waverly, the Independent Democratic candidate was low man with a total of 308 votes.

Mr. Wynn who is a son of Mr. and Mrs. W. A. Wynn of Pike County, is only 28 years of age and will probably have the distinction of being the youngest legislator in Ohio. He also has the distinction of being the first Pikeonian to represent Pike county in the lower house of the state legislature.

One of the surprises of the election in Pike county was the election of W. A. Sampson of Pike County as County Treasurer over his Democratic opponent, George N. Luchmann of Waverly. Mr. Sampson showed almost unbelievable running form and carried the two normally Democratic precincts in Waverly by a total majority of 25 votes. In his home precinct of Pike County, Mr. Sampson received 265 votes, running about 15 votes ahead of his ticket. Mr. Sampson's final majority is said to be in the neighborhood of 150 votes.

Thomas Edward Bateman, son of Mayor and Mrs. E. C. Bateman of Pike County and the present Republican Clerk of Courts was defeated for the short and long term for Clerk of Courts by his Democratic opponent, William N. Cline of Waverly. Mr. Bateman was appointed Clerk of Courts by the present County Board of Commissioners, to succeed L. F. Sweigert who resigned in September of last year as the law requires that an appointment can only be made until the next general election, and as Mr. Cline was elected for both the

short and long terms he will probably succeed Mr. Bateman as Clerk of Courts within the next two weeks. Prosecuting Attorney Levi R. Moore, Republican, is said to have conceded the election of his opponent, George R. Nye, Democrat, son of Dr. George R. Nye, political boss of Pike county. Nye is a graduate of the Ohio State University, was admitted to the bar last summer and will no doubt execute the business of his office in a very able manner. The defeated Prosecuting Attorney, Levi R. Moore has served the people of Pike County faithfully as Prosecutor for several terms.

Carl W. Penn, present Democratic County Auditor, of Waverly defeated his Republican opponent, Robert R. Jones of Waverly by a majority of more than 250 votes. Auditor Penn has guarded the interests of the people of Pike county faithfully during the last four years. He has served them and his election is a vote of appreciation by the people of Pike county.

The closest contest in the election was that between Recorder Bert Ellisworth of Waverly, Republican, of Waverly and Elijah H. Jackson, Democrat of Stockdale, in which Mr. Jackson is apparently the victor by a small majority of twelve votes.

County Commissioner James H. Johns, Republican of Waverly was re-

elected to private life by the Democratic candidate, Madison A. Brown of Pike township. This victory was not unexpected as Mr. Brown is very well acquainted and popular in all parts of the county. Mr. Brown served the people of Pike county in the capacity of delegate to the Constitutional convention in 1912 and was for several years a member of the Board of School Examiners in Pike county.

Daniel J. Wilson, Democrat of Beaver township defeated his Republican opponent, Sam J. W. Byron of Givens for the office of Coroner by a substantial majority. Vera L. McCoy, Democrat of Latham was successful in his race against Wilmer S. Gehres of Waverly for the office of County Engineer. Mr. Gehres is at present the Republican County Engineer.

Sheriff Chambers A. McClay, Republican, of Waverly, went down to defeat at the hands of William A. Anderson, Democrat of Tugan. Mr. McClay made a good race but was defeated by a majority in the neighborhood of one hundred votes.

With the above results of the election practically assured it is evident that the Democrats of Pike county have dug themselves from beneath the avalanche of ballots which completely submerged them in 1920 and the Democratic organization of Pike County again functions normally.

## INTERMEDIATE LEAGUE BAKE SALE

The Intermediate League of the Franklin Avenue M. E. Church will hold a bake sale at the Columbus Cut Rate Meat Market, Saturday morning, starting at 9:30. All members of the League are asked to bring their donations to the Meat Market, if possible, or else to the home of Rue

Kirk, 1701 Baird avenue, not later than 9:00 Saturday morning.

The money realized from this sale will be used to pay the expenses of the "Mother and Dad" Banquet, which is to be held about December 8th.

## MANLY ENTERTAINMENT PLEASURES

A large and appreciative audience greeted the refreshingly clever entertainment offered last evening at Manly church by the Kappa Pi and the Phi Delta Psi societies. "The Land of Forgotten Song" with its quaint reminiscence and delightfully clever tunes and melodies won the hearts of the audience and its conclusion was greeted by hearty ovations. The second part of the program "A Day in Camp" presented in such an amusing and realistic picturesque way with its sym-

van atmosphere and irresistible spirit made a decided hit.

A silver offering was lifted after the performance to defray expenses, that he is located in a section where all of the officials of the American City Bureau with which he is now working live. Mr. Wiles has established a record of selling more than any other man of the bureau. He says he is delighted with his new home and that any Portsmouth people who happen to be traveling in the part of Illinois where he is now residing are cordially welcome to make his home their headquarters.

We know there is one thing that stops eczema, and that is more red blood-cells! S. S. S. builds them by the millions! You can increase your red blood-cells to the point where it is practically impossible for eczema to

erupt. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its scurfing, unbearable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting giants of nature! S. S. S. builds them by the millions! It has been doing it since 1822! S. S. S. is one of the greatest blood-cell builders, blood-clearers and body-builders known to us mortals! When you put these facts together—then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes: "My little girl had a very bad case of eczema. She began taking S. S. S. and is well now. I thank you very much. I tell my friends what a good medicine it is. I cannot talk too much about it for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. Because S. S. S. does build red blood-cells, it cures rheumatism, builds firm flesh, fills out hollow cheeks, beautifies the complexion, builds you up when you are run-down. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the most economical.

**S.S.S. makes you feel like yourself again**

Boyer, assistant to Chief Surgeon Dr. Schirman; Mrs. Joseph Beantown, of the plant hospital at New Boston; Dr. W. D. Schafer, who makes daily examinations; Miss Flossie Stout and Miss Mary Kappes, nurses at the plant hospital; and Mrs. Mary Blume, visiting nurse.

## Kills Blue Eagle

VANOVERBURG, KY., Nov. 10.—Donald Roe, a young man who lives about a mile below town, killed a large blue eagle this morning.

The bird was an ugly specimen, easily able to carry away a small lamb or a little baby. Its measurement, the spread of its wings was six feet, five inches, from tip to tip.

The bird was killed on O. W. Stumper's farm, and Mr. Stumper, who has it in his possession, stated that he intends to have it mounted.

## Mrs. Buchert Is Released On Bond

Mrs. Evelyn Buchert, 1020 Gay street, who Tuesday was held for grand jury action from Municipal court on a charge of second degree murder for the killing of her husband, John Buchert, Friday street shoe dealer, was released from custody on \$1,000 bond yesterday.

Local friends signed the bond, which gave Mrs. Buchert her liberty, and she immediately left the city, going to Dayton, where she will live with relatives for a time. She will probably be called before the next session of the grand jury to tell the story of the difficulty which led to the fatal shooting which occurred in

The next meeting of the organization will be held with Mrs. Drummonds, with Mrs. Philip Knust, Mrs. George White and Mrs. A. W. Whitestone as hostesses.

Group 5 of Trinity Ladies' Aid Society will meet next Wednesday afternoon at two o'clock at the home of Mrs. T. C. Crawford, 1311 Ninth street. Mrs. A. A. Wilkoff will be the assistant hostess.

Members of the Loyal Women's class of the Grandview Avenue Church, were entertained last evening at the home of the superintendent of the Sunday school, John Ditty, of Ninth street. Forty-two members responded to roll call and following a short business session, Mr. Ditty talked to the women on the merits of the class. Mrs. H. Munton, Mrs. Jno. Warnock, and Mrs. O. H. Gast gave delightful recitations and a short talk was given by Lee Ferguson, Miss Mary Burns, Miss Margaret Bridwell and Miss Elbet Hasselmann sang.

Later a buffet luncheon was served by Mrs. Ditty.

The marriage of Miss Katherine Vigns, to Arthur Flint Osborn was solemnized this afternoon in Ironton. Rev. W. T. Blume read the impressive ceremony.

The couple were attended by Mr. and Mrs. William Breece, of this city, with whom the bride has made her home for many years.

Following the ceremony a wedding dinner was served at the home of Mr. and Mrs. Barber, of Front street. Covers were laid for Mr. and Mrs. Osborn, George Davidson, of Ironton; Harry Gillen, Mrs. Emma Gillen, Mr. and Mrs. Edward Cunningham and daughters, Lillian and Jean, and the host and hostess.

The bride-groom is employed at the Whitaker-Glossner Company.

The women of the All Saints' Church opened the annual bazaar with a dinner at the Parish House last evening. Five long tables were laid in the auditorium and centered with baskets of beautifully arranged autumnal flowers. More than 300 guests were served between the hours of 5 and 8 o'clock.

On the first floor there were six booths arranged for the bazaar and dainty needlework and novelties suitable for Christmas gifts were sold. Home-made candy and pop-corn are also on sale.

The bazaar is continued today and tonight.

Word has been received from Mr. and Mrs. F. H. Vaughters and Mr. Ira Vaughters of their arrival at Zephyr Hill, Florida, where they will spend the winter. They made the trip via motor, stopping at various places of interest enroute. They found the roads in fair shape, except for a few rough stretches.

Friends of Miss Sadie Lewis and Herman Anderson will be surprised to learn of their marriage, which was solemnized in Greenup, Ky., yesterday at 11 o'clock with L. E. Nichols officiating. Mr. and Mrs. Anderson will make their home in friendship with Mrs. Anderson's parents.

## Why This Dish

Why do millions of mothers start their children's days on oats?

Because oats form the premier food.

Their energy value is 1810 calories per pound.

They supply 16 elements which growing children need.

They are rich in minerals.

They supply the whole-grain vitamins.

Why do we make a special grade and call them Mother's Oats?

And why do so many mothers serve them?

Because oats differ in flavor. Some are delicious, some are not.

Mothers want the flavory oats, so we pick them out and flake them.

If you want to make the oat dish welcome, always serve Mother's Oats.

## Eh, Bo! Where Do You Get That Stuff?

The Ironton sport writer, in his announcement of Saturday's game between I. H. S. and Aquinas H., boasts that Aquinas has not been defeated for three years, which statement is stretching the truth to some extent. Last Thanksgiving Day I. H. S. won from Aquinas 6 to 0. Last Saturday Aquinas won the high school championship of Columbus by defeating West High. They also trounced Athens this year 13 to 6.

## Buying In Quantities Lowers Prices Of Clothing

The secret of the success of big national institutions is found in their ability to sell merchandise of guaranteed quality at the lowest prices. These firms, because of their tremendous volume of business are able to buy their merchandise for less money than the small store and consequently are able to sell their merchandise at lower prices. Such is the case with the When Store in this town, which is only one of the great many When Stores throughout the country. Their buyers in New York are in a position, because of the largeness of their orders, to secure merchandise of guaranteed quality at the lowest possible cost, wherein lies the secret of remarkable values that the When Store is noted for giving.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

T. R. C.—In making a proof correction in the answer to your question asking for the names of the Supreme court judges who were responsible for placing the "Light Beer and Wine" Amendment on the ballot at Tuesday's election, which was printed in yesterday's paper, the names of Judge Benson W. Hough and Judge James E. Robinson got switched, making it read that Judge Robinson was re-elected at Tuesday's election, instead of Judge Hough, who was then thought to have been the winner. However, the latest official count shows that Judge Hough was defeated by Judge Florence Allen.

Dear Miss Wise—Will you please tell me why the press leaves out the things that would be helpful to the people such as letters sent them, and instead fill their columns full of foolishness that will corrupt its readers? No wonder there are so many outlaws today. They are defiled and ruined in childhood by reading bad literature, and if they will not print what the public pays for, I for one will quit taking the paper. I would like to know why they don't print the letters sent in. I have friends that would like to hear from me through the paper and I have failed to see a letter that I have written to the Times in print. Is there an extra charge? The paper would be more valuable if filled with news and good reading instead of silly nothings. Don't you think so?

A SUBSCRIBER.—Whoopie! you're riled up about right, aren't you? I don't know who you are, or what kind of letters you have been sending to the Times, but I imagine it will be some consolation to you to know that yours are not the only letters that are consigned to the waste basket every day. We have about a bushel of them, and believe me, it is no picnic going over them and trying to pick out those that are worth while and that can be consigned to print. I waste a lot of my perfectly good time trying to decipher letters of illiterate readers, and get enough sense out of them to publish, and I know the editor has his troubles too, but he may not have the patience that I have with them, and that probably accounts for most of the way they should go, the newspapers corrupting small children is only an excuse to let yourself down easy. The main cause of corruption is lack of home training. If parents will do their duty and train their children in the way they should go, the newspapers won't hurt them. The majority of incorrigible children are guilty of everything else in the calendar of crime, but reading the newspapers.

Dear Dolly—I am thirteen years of age and in the eighth grade. Do you think I am too old to be in the eighth grade? I have only failed once. That was in the seventh grade. My mother always tells me not to write so small but I think it is large enough don't you? Will you please give me a good recipe for some fudge?

BLUE EYES.—You are getting along very well in school. You will learn more by going slow than rushing through. Your writing would be more legible if you would write large. Here's your fudge. If it's good send me a bite: Two cups sugar, 1/2 cup sweet milk, butter size of a good walnut, flavor with vanilla, grate chocolate in and cook until it makes a soft ball when dropped in water; pour in buttered plate and stir until hard.

I don't know what you have been trying to get in print but if I had such an important message for my friends I would like a hall and invite them all to hear me, or else I would have some circular letters printed and mail them out. Perhaps the general public would not be so interested in what you have to say. The people employed in a newspaper office are better judges than you are of what should be printed and what the line should be left out. We must draw the line somewhere or the paper would be full of letters. Some of the writers haven't a bit of judgment either. They seem to forget there is such a thing as the Golden Rule. They will write letters about their neighbors, telling things that are perhaps untrue, and want them published. I suppose they would drop dead if their neighbors would write the same things about them and want them printed in the paper. What I don't know about the "family skeletons" in this town is not worth knowing. If you will tell me your name I'll tell you all about yourself.

- 1/2 cup butter  
1 cup powdered sugar  
1 1/2 cup thin cream  
1 1/2 teaspoon vanilla

Work butter until creamy and shiny like satin. Add sugar, gradually and beat until both are light and creamy. Add cream a little at a time and continue beating. Add vanilla and place in a cold place.

One of the loveliest social functions of the season was the charming Five Hundred party given by Mrs. A. J. Wellman Thursday afternoon at her handsome home, Sixth and Union streets.

The lower floor was attractively arranged for the occasion, large baskets and vases of vari-colored dahlias and fluffy chrysanthemums being used in every available space, making a prettily setting for the handsomely gowned ladies.

After a brief reception the players found their places at the small tables and several pleasant hours were whittled away playing Five Hundred. At the close of the game Mrs. John W. Snyder was awarded the first prize for high score. The second prize was presented to Albert Maier, while Mrs. Edgar Poffenberger was consoled.

At five o'clock the hostess served a delicious three course lunch at the card tables. She was ably assisted by her three sisters and aunt, Mrs. John W. Snyder, Mrs. John C. McMahon, Mrs. T. G. McCormick, Miss Louise Steigerwalt, and Miss Austin Doyle.

Miss Lulu Jones of 812 Walter street was hostess to the members of the Research Club last evening at an interesting business and social session. Miss Ethel Taylor was the assistant hostess. The lesson on Scientology was given by Miss Lulu Summers. Two delightful musical numbers added to the enjoyment of the evening. Miss Mary E. Purcell played "Scherezette" by Atherton and the "Roman Soldier" by Frothingham, while Miss Edna Tracy rendered the "Flower Song" in a very charming manner.

Before the meeting adjourned, Miss Jones served a delicious refreshment course.

## Adventures Of The Twins

BY OLIVE ROBERTS DARTON

JACK O'LANTERN was leaning against the barn. He was unhappy and dejected in spite of the fact that the corners of his mouth turned up in a grin showing two rows of enormous teeth.

"I don't understand it," he said to the turkey. "For awhile I was the most important person hereabouts. Every night the children put a candle in me and carried me around on a broomstick and scared the whole neighborhood, and my, but we had the fun."

"Yes, I know," gobbled the turkey sympathetically. "Indeed, I was very jealous of you getting all the attention. It just shows how tickle people are and how soon they tire of their friends."

"Well, you don't need to be jealous now," spoke up Jack O' Lantern with spirit. "The whole family have suddenly grown quite fond of you. Master feels you enough corn to make you burst, and Mistress says a dozen times a day, 'My, but that turkey is getting fat!' As for me, not a soul looks to see how thin I am getting. I feel all gone inside."

Jack O' Lantern sighed such an enormous sigh that he felt over on the ground and his head rolled off his broomstick body. "Now I am done for," he cried out weakly. "So one will ever see me here."

Suddenly a voice asked, "Does anyone know where we can find Mr. Jack O' Lantern?"

"Gosh!" thought Jack O' Lantern. "I must be of some importance after all! Somebody hasn't forgotten me. I wonder who it is. Here I am!" he called as loudly as he could. "Who wants me?"

"Nancy and Nick," came Nancy's sweet voice. "We're looking for Mother Goose's broom. Did you see it?"

## JACK DAW'S ADVENTURES

It is hard to believe that a little boy would do such a foolish thing, but when Jack tossed the big fish back into the water, he forgot to take the hook out of its mouth. As soon as the fish was out of sight it started to swim. Jack had all he could do to hold on to the line.

"This is the fastest ride we've had yet," shouted Jack as the big fish raced through the water with the little raft in tow. Jack had lost his end of the fish line to a big nail and he was having great fun dodging the big waves that roared up over his head.

After a while the water became smooth and the waves didn't weigh over the raft any more. The hooked fish, however, was still taking Jack and Flip on a rapid ride. "I'll just sit down and enjoy this," said Jack. And once again he fell fast asleep. On went the raft. Continued.

## Writes About Girls' Basketball Rules

Sports Editor Times:

Gentlemen:—Knowing the stand your papers have always taken to encourage clean athletics, and having heard that there is talk of forming a County High School Basketball Association, including Otway, McDermott, Wheelersburg and South Webster, I thought you might publish this article about Girls' Basketball.

Having no official connection with any athletic events this year, I feel that I can write the following without being accused of partiality.

You will probably remember me as

the Peebles Coach that last year lost a silk shirt in a certain football game.

The Girls Basketball Ball Teams of Scioto and Adams counties have been accustomed to use a so-called Modified System of Boys' Rules. Before the teams arrange their schedule (this year, the coaches should meet and agree on the interpretation of the rules. It seems as if no two teams have been coached in the same modifications; and this difference often leads to disputes and never to a fair game.

Modified Boys' Rules are almost never used west of the Mississippi,

and never in the East. Here in the mid-west we have allowed them to creep in because the coaches were men, and were not familiar with girls' rules; so they taught the only rules they knew, boys' rules.

There are only two main arguments for or against either set of rules. The defenders of Modified Boys' Rules claim: first, that Girls' rules slow up the game; second, that Girls like to play Boys' rules better. Both of these arguments are fallacies and are advanced by persons who have not had much experience with teams

playing under strict Girls' rules. There is no prettier, faster, nor more pleasing game than a girls' game of basketball played by two teams well coached; under strict Girls' rules. There is as much contrast in the speed and beauty of this game compared with Modified Boys' Rules, as there is between the new open play football and the old mass formation.

As to the second argument, there are teams in this immediate vicinity that have played boys' rules all their lives; but after changing to girls' rules last year, could not be hired to change back.

There is one unanswerable argument for girls' rules. That girls are physiologically, anatomically, and psychologically different from boys; and that girls' rules have been developed by specialists in medicine and athletic coaching to take care of these fundamental differences.

The other argument for girls' rules is that girls properly trained in vertical guarding and a non-contact game play a far faster and more skillful game; for "main strength" is eliminated and a premium placed on quickness of eye, hand and foot.

## Sunday School Lesson

"JESUS, THE GREAT TEACHER"—LESSON

TEXT—Luke 6:1-19. Printed Text Luke 6:27-38—Rev. O. H. Gast

This great teacher conceived of the holy spirit, born of the Virgin Mary, has startled the world with His wonderful teaching. Infidels, critics, evolutionists and P. H. D's. have argued with fury against this teacher and his teaching, attempting to prove that he made mistakes, that he had no miraculous birth, that he did no miracles and etc. With all their scorn and fury his life and teachings still stand unimpaired. When these men are dead and gone and their lives and works all cast into the junk heap, this great teacher and his teachings will still live on. At the age of twelve years he confounded the Jews at Jerusalem with his question, "How can ye blaspheme the Son of man, he says, he being the Son of God?" In this present day, we read no more of his life from the age of 12 until about thirty years of age with the exception "That he grew in wisdom and stature and in favor with God and man." At the age of thirty he comes to the river Jordan and is immersed in that river by John the baptizer. Then the voice from heaven, "This is my beloved son in whom I am well pleased." He then begins his public ministry, teaching, healing, etc.

As he was on the mountain side, the multitudes came to him to hear what he has to proclaim. The Disciples came close and he opens his mouth and begins to give them what is called The Sermon on the Mount. What wonderful teaching come from the lips of the world's greatest teacher.

Verses 27, But unto you I say who are hearing me, he loving you, he doing good unto them that hate you, Verse 28, he blessing them that curse you, he praying for them that wantonly insult you. Perhaps everyone has enemies some time in his life. How shall we treat them? Jesus here tells us, and not only tells us but leaves his example. He did not choose his enemies for his close friends, but he tried to save them. He shared love with them. We can bless others, speak well of them and give them our good wishes. He also teaches in this lesson, that we should not try to get even. Remember that unto you I say who are hearing me, he loving you, he doing good unto them that hate you, Verse 28, he blessing them that curse you, he praying for them that wantonly insult you.

Some are ready to say, "Well, I won't fight or quarrel unless someone else starts it. If one does, why, then I try to get even with him." Once when some one struck Jesus he turned his cheek but did not strike back. They could strike him again but he would not try to get even with them. "Vengeance is mine, saith the Lord, and will I repay." If they go to law and take away the cloak give them thy coat also. When they curse you don't curse back. "Rejoice and be exceedingly glad for great is your reward in heaven." In so doing you will put them to open shame. When the method fails to put the enemy to shame it shows a hardened heart and there is nothing then that will save for if this method does not bring much of shame to the cheek there seems to be no hopes for that individual.

The law allowed a man to take away the coat for a debt but did not permit the taking of the cloak worth double the amount unless the owner consented. Jesus said, "Don't keep back the coat or cloak if the one you owe says the other is not enough."

We must be unselfish and ready to share with those who need our help. We must also use good sense in dealing with those who favor us. Jesus here gives us a good rule to live by, Verse 31, "And according as ye desire that men be doing unto you, so ye do unto them in like manner. We can test our words, deeds

and actions by it. Would I like to have others do what I am about to do, etc.  
All kinds of folks in this world. It is easy to love those who love us and do good to those we know will do good to all. To the kind and unkind, Jesus means something different than mere trading, as about Jesus there some have the habit of giving presents only to those who they know will give back to them. This is not giving. It pays to be merciful to others, to be kind to others, to give to others even though we know that they will not return. Our reward is over in the New Jerusalem.

The son, "More Like the Master" is a fitting song to close this lesson. Fear in mind the Golden Rule as the text.

## Urge Care In Building New Courthouse

President Adam Frick of the Chamber of Commerce, mailed the following letter yesterday afternoon to the Board of County Commissioners and to the Committee on the New Court House:

Portsmouth, Ohio,  
November 9, 1922.  
The Honorable Board of County Commissioners,  
Mr. Jos. Appel, President,  
Portsmouth, Ohio.

My Dear Sirs:  
These reports advise that the architects have granted permission to erect a new Court House, that is indeed thoughtful and very timely. Of course, we shall keep in mind that the final completion of such an improvement must be most adequate and at the extreme of low cost. This is essential that criticism may not justify.

The import of such an undertaking such as building a Court House brings to mind that quite a bit of study should be given to the details necessary in adopting a suitable type of structure and determining the source from which the best materials and workmanship are to be obtained, without leaving an opening into which suspicion may find its way where an unusual profit for anyone may be concealed. I am sure you intend all these safeguards. Recalling that under the auspices of the Chamber of Commerce, I brought this question to attention, it is now my pleasure to tender assistance wherever I may be helpful and when you have decided upon the citizens fitting to carry on the work it will be my further pleasure to assist in securing data and such other information that may come to the office of the Chamber of Commerce.

Very respectfully,  
ADAM FRICK, President.

Portsmouth, Ohio,  
November 9th, 1922.

Mr. A. H. Bannan, Chairman,  
Committee on New Court House,  
Portsmouth, Ohio.

My Dear Mr. Bannan:  
It is especially gratifying to note in the press that the architects have consented to the erection of a new Court House, a safe place in which to maintain public records.

In passing upon the question as they have it carries with it the mandate that nothing except of real value at the most conservative cost should be undertaken and we shall understand and keep in mind that those who are to pay for the improvement are demanding merely what is right.

The importance of this undertaking is such as to require study and detailed information necessary in building up to the construction of a suitable structure within a minimum cost of both erection and maintenance.

Having brought this question to attention of the County Commissioners, I am very certain that a Board made up of citizens will be appointed by them that are in every way fitted to carry out the work with which they will be charged and in turn safeguard the public money necessary to obtain that which we are now asked to build which must be fitting to the present day.

I thank you for the attention given this matter and under the auspices of the Chamber of Commerce, the accomplishment seems now nearer at hand.

Very respectfully,  
ADAM FRICK, President.

Will Arrive Saturday

Mr. and Mrs. Fred H. Bannan of Chicago, are expected to arrive here Saturday for a short visit with his sister, Mrs. Charles Ray, at 101 Third Street, and from there to visit their parents and other relatives in the city.

Ministers Here

Rev. W. S. Harold, Stanton, and Rev. Charles Glavin, Ironton, will arrive in Portsmouth Thursday attending a meeting of Presbytery.

Rev. Harold is moderating of Presbytery.

Is Better

Mrs. Bert George, of Galena Park, who has been seriously ill with pneumonia, is improving, but is not yet out of danger.

## Intelligence Tests

At a meeting of first grade teachers of the elementary schools held yesterday afternoon in the High School, which was conducted by Superintendent Frank Appel, plans were completed for the intelligence tests which will be given shortly to ascertain the mental culture of the children entering the public institutions of learning. Two of these tests, which are recommended by Professor Buckingham of the Research Department of Ohio State University, will be given next week. One of the examinations is known as the Detroit First Grade Intelligence Test, and the other the Pressey Test compiled by the World Book Co. The papers will be graded and sent to Columbus for inspection.

For immediate and permanent relief from eczema I prescribe  
**Resinol**

"If you want to experiment, try some of these things you talk about. But if you really want that itching stopped and your skin healed, I advise you to get a jar of Resinol Ointment, and a cake of Resinol Soap. We doctors have been prescribing that treatment ever since you were a small boy, so we know what it will do. It is cooling, soothing, easy and economical to use, and rarely fails to overcome eczema and similar affections."

Ask your dealer today for Resinol Soap and Ointment.

## GETTING RID OF A STUBBORN COUGH IS CHILDS PLAY NOW

Make the Medicine Yourself at Home! It's Cheap—But You Can't Beat It.

It is a well known fact that a cough is a warning signal of some trouble in the throat, lungs or bronchial tubes. If you do not take prompt action, the cough may become a habit and the trouble may become chronic.

There are many ways of getting rid of a cough, but the best way is to use a medicine that will cure the cause of the cough. A cough is a symptom of some trouble in the throat, lungs or bronchial tubes. If you do not take prompt action, the cough may become a habit and the trouble may become chronic.

I thank you for the attention given this matter and under the auspices of the Chamber of Commerce, the accomplishment seems now nearer at hand.

Six years ago the Portsmouth Dry Goods Company opened their doors to the people of this community. At that time we occupied just one building with about 7,000 square feet of selling space, now our store occupies two buildings with over 20,000 square feet of selling space. This phenomenal growth was made possible by the liberal patronage enjoyed by this store. This patronage was drawn and held by the principle of giving at all times better goods for the same money or same goods for less money. To show our appreciation of this patronage we are going to celebrate our Anniversary with a regular P. D. G. Sale, which as every one knows means that you will be able to obtain goods at really low special prices. Many of these special prices are made possible by the manufacturers from whom we have bought consistently. To help us with this sale they have sold us a great many items below the actual cost to produce. We advise early shopping as many items will not last long owing to the wonderful values offered.

## BEGIN HERE TODAY

Through the Adirondack forests rages a savage battle for possession of the flaming jewel, originally stolen from the refugee COUNTESS THEODORA of Esthonia by the great international thief.

## QUINTANA

"In Paris, Quintana was robbed of the gem by

MIKE CLINCH, an American soldier, who brought the gem back to the disreputable hunting camp where he lived a life of crime.

Ever since his legitimate business of guiding hunting parties had been destroyed years ago by the uncle of

JAMES DARRAGH, Darragh, going as Hal Smith, loves the countess and has sworn to restore the jewel to her.

Clinch is passionately fighting for the jewel as it represents the sole means of giving his beautiful stepdaughter,

EVE STRATER, the "education of a lady."

Eve and her lover,

TROOPER STORMONT, escape from Quintana, who with his gang has come to the camp to regain the jewel. Eve swims Star Pond with what she believes to be the real jewels in her mouth. Darragh takes what Eve thought was an empty jewel case from Quintana and finds the real jewels in a false bottom. Darragh learns that the countess and her companion are about to arrive at his hunting lodge.

CHAPTER II

DARRAGH, in blanket outfit, a pair of snow-shoes on his back, trudging up from the lake. He and Stormont watched Lannis riding away with the two horses.

"Hell make it all right, but it's time he started," said the latter.

Darragh nodded: "Some storm. Where is Eve?"

"In her room."

"What is she going to do, Jack?"

"Marry me as soon as possible. She wants to stay here for a few days but I can't leave her here alone. I think I'll telephone to Ghost Lake for a sleigh."

"Let me talk to her," said Darragh in a low voice.

"Do you think you'd better—after such a time?"

"I think it's a good time. It will divert her mind away. I want her to come to Harrod Place."

"She won't," said Stormont grimly.

"She might. Let me talk to her."

Stormont hesitated, looked at him, nodded. Darragh stood his rifle against the bench on the kitchen porch. They entered the house slowly. And met Eve descending the stairs.

The girl looked at Darragh, astonished, then her pale face flushed with anger.

"What are you doing in this house?" she demanded unsteadily.

"Have you no decency, no shame?"

"Yes," he said. "I am ashamed of what my kinsman has done to you and yours. That is partly why I am here."

"You came here as a spy," she said with hot contempt. "You lied about your name. You lied about your purpose. You came here to betray Dad! If I had known it he would have killed you!"

"Yes, he would have. But—do you know why I came here, Eve?"

"I've told you."

"And you are wrong. I didn't come here to betray Mike Clinch. I came to save him."

"Do you suppose I believe a man who has lied to Dad?" she cried.

"I don't ask you to. Eve. I shall let somebody else prove what I say. I don't blame you for your attitude. God knows I don't blame Mike Clinch. He stood up like a man to Henry Harrod. . . . All I ask is to undo some of the rotten things that my uncle did to you and yours. And that is partly why I came here."

The girl said passionately: "Neither Dad nor I want anything from Harrod Place or from you. Do you suppose you can come here after Dad is dead and pretend you want to make money for what your uncle did to us?"

"Eve," said Darragh, gravely. "I've made some friends already. You don't know it, but I have. . . . You may not believe it, but I liked you. He was a real man. Had a right to do to me what Henry Harrod did to your father. I'd have believed as your father believed. I'd have believed that this spy had borne an unpleasant hatred against Henry Harrod and Harrod Place, and every soul in it."

The girl, silent, looked at him without belief.

He said: "I am not surprised that you distrust what I say. But the man you are going to marry was a junior officer in my command. I have no other friend than this Stormont. Ask him whether I am to be believed."

Assembled, the man, a flushed, nervous, and a storm.

He said: "You may trust Darragh, as you trust me. I don't know what he has to say to you, dear. But whatever he says will be the truth."

Darragh said, gravely: "Through a misunderstanding your father came into possession of stolen property. Eve. He did not know it had been stolen. I did. But Mike Clinch would have believed me if I had told him that the case of jewels in his possession had been stolen."

## If your tongue is coated or if you have an offensive breath!

Two almost unailing danger signals that show you are suffering from constipation! Unless you eliminate this dangerous condition you have ten chances out of one hundred to escape illness—for ninety per cent of all sickness has been traced directly to constipation!

You cannot afford to wreck your health through neglect of constipation or constipation symptoms! Fight constipation as you would fight fire! And fight it with nature's greatest natural weapon—BRAN—Kellogg's Bran, soaked and crumbled! Your physician will endorse the use of Kellogg's Bran for constipation!

Kellogg's Bran will keep you hale and hearty and free from disease that come from intestinal poisoning. Because Bran cleanses the bowels as nothing else can, and cleanses them

in a natural way that causes no irritation or discomfort! Children thrive when given Kellogg's Bran. It helps them to grow strong and robust.

Eat Kellogg's Bran regularly and you will relieve constipation naturally and surely. But—it is important to use it each day; at least two heaping tablespoonsful; in chronic cases eat it with each meal.

Kellogg's Bran will awaken an offensive breath and clear up a plumpy complexion—both being largely traceable to constipation.

And you will appreciate the delight of eating KELLOGG'S Bran, cooked and crumbled. It is delicious as a cereal or sprinkled on other cereals and it can be used in countless appetizing ways in baking and cooking! Grocers sell Kellogg's Bran.

you would not even see me. And so I brought with me—somebody to whom I felt certain you would listen. . . . I brought with me a young girl—a poor refugee from Russia, once wealthy, today almost penniless. . . . Her name is Theodora. . . . Once she was Grand Duchess of Esthonia. . . . But this morning a clergyman from Five Lakes changed her name. . . . To such friends as you and Jack she is Rieva Darragh now. . . . and she's having a wonderful time on her new snow-shoes."

He took Eve by one hand and Stormont by the other, and drew them to the kitchen door and kicked it open.

Through the swirling snow, over on the lake-shore at the timber edge, a graceful, birch figure in scarlet and white wood moved swiftly over the drifts with all the naive delight of a child with a brand new toy.

All at once and a trifle breathless, she met Darragh just beyond the veranda, rested one mitted hand on his shoulder while he knelt and unbuttoned her snow-shoes, stepped lightly from them and came forward to Eve with outstretched hand and a sudden winning gravity, as her lovely face.

"We shall be friends, surely," she said in her quick, winning voice—"because my husband has told me—and I am so grieved for you—and I need a girl friend."

Holding both Eve's hands, her mittens dangling from her wrists, she looked into her eyes very steadily.

"I REMEMBER YOU NOW," SHE SAID.

## M. J. Whalen, A Former Local Boy, Is Now Half Owner In Big Plant In Huntington

The following from the Huntington Herald-Dispatch is of local interest, since Mr. M. J. Whalen, a former Portsmouth boy, has many relatives here and is well known in the city:

Knowledge of a transaction involving a change in the control of the Nicholson-Kendle Furniture Company, and considerations approximately \$700,000 became known yesterday. M. J. Whalen and Charles Voss who for several years have been active in the management of the big manufacturing concern are the principals in the new control. This control was acquired by the purchase of all the stock held by C. W. Kendle and a portion of the holdings of Grimes J. Nicholson. Plans for the re-organization of the company and the expansion of the big plant on Twentieth street, are to be made public within a short time. Mr. Whalen and Mr. Voss indicated yesterday.

Colonel Nicholson, the head of the concern since its foundation, retaining an interest in the corporation and will continue to serve on the board of directors. It was made known yesterday. For several years Mr. Kendle has been devoting his time to the management of the affairs of the Central Glass Company.

Came From Ohio. The Nicholson Furniture Company, controlled by C. J. Nicholson and C. W. Kendle, was brought to Huntington from Manchester, O., in September, 1902. It was one of the first important manufacturing enterprises brought to Huntington through the efforts of the Chamber of Commerce, at a time when Huntington was approaching her first really great period of development.

The concern, then as now manufacturing dining room tables, had a capital stock of \$100,000, and operated in two one story frame buildings, each 48 by 200 feet in area.

The plant today has 100,000 feet of floor space in modern brick buildings fronting 985 feet on Twentieth street. It is protected from fire by a concrete sprinkler system. Its machinery is of the most modern type.

Growth Is Heavy. The first year's business totaled \$35,000 while the annual output now approximates \$1,200,000.

At the beginning of life in Huntington the company sold its output in Ohio, West Virginia and Kentucky. Now, with fifteen men on the road, it sends its production into practically every state of the union.

From the days of its small beginning when the working force was extremely limited until the present, the plant has never "shut down" except on Sundays and holidays, a record to which Colonel Nicholson pointed yesterday with justifiable pride.

Capital Is Increased. The Nicholson Furniture Company became, sometime after it began operation here, the Nicholson-Kendle Furniture Company, with a capital stock increased to \$500,000.

Seven years ago the capital stock was increased to \$200,000, and M. J. Whalen and Charles Russell Voss already in the employ of the company became stockholders.

Mr. Whalen came to Huntington in 1913 from Portsmouth where he had been connected with the Portsmouth Veneer and Panel Company, and joined the force of the Nicholson-Kendle Company as assistant to Vice President Kendle. Two years ago, on

account of the pressure of his duties with the Central Glass Company, Mr. Kendle retired and Mr. Whalen came vice president and manager.

Mr. Voss is a native of Cambridge, and in his youth spent several years as paymaster at the Ashland Sheet Mills. For a time thereafter he was assistant national secretary in Kentucky and West Virginia. In 1915 he became secretary and treasurer of the Nicholson-Kendle Furniture Company.

## BRINTON HAS \$35,000 FIRE

BRINTON, Nov. 10—Fire early this morning destroyed the Waddle Market, the Bosham and Bow-land confectionery shop, and the Waddle residence, all three adjoining buildings at Third and Keop avenue, at an estimated loss of \$35,000. The fire was discovered in the confectionery shop about 12:30 o'clock by the Dillon family, living above the market. They immediately notified Mr. Waddle and the alarm was turned in, the fire department being on the scene in two minutes. The buildings are all together and the fire spread rapidly and by the time firemen arrived the upper part of all three structures were blazing.

Excellent work on the part of the firemen confined the fire to the buildings and the S. W. Boothie store on the corner was not damaged and suffered no damage whatsoever. The other three structures were almost completely destroyed, water rendering the stock useless. The furniture in the Waddle home was also a complete loss. The cause of the blaze is not known. Motorists passing the scene at 12:15 reported there was no fire to be seen. Mr. Waddle, who owns the destroyed buildings, stated the loss was heavy it was covered by insurance. He had no idea of how the fire started, his knowledge of it being when he awakened by the Dillon family. Furniture, fixtures or stock was not saved, owing to the intense heat and smoke, but all of Mr. Waddle's family living over his escape. Two telephone cables connected out and service in the part of town was cut off.

CHARLESTON—The state board of fire insurance awarded contract for the erection of a "model school" at the Virginia College Institute to the Charleston at his \$15,000. Work is to be completed immediately.

## Why Look Who Is Here, "Shop Early"

In order to do away with the last minute rush that is characteristic of the Christmas buying public, the Retail Merchants Division of the Chamber of Commerce is starting a campaign to have the shoppers start their buying early, which will be an advantage to the buyer and seller. Every merchant is to be asked and urged to start his Christmas "buy early" campaign immediately after November 30, Thanksgiving Day.

With all booming the "buy early" slogan simultaneously it is thought that much can be accomplished toward stopping the last minute rush to the store counters.

## Fire At Y. M. C. A. In East Portsmouth

The fire company from the Gallia street station yesterday responded to a call to the Railroad Y. M. C. A. building at the terminals where a fire was discovered under the veranda on the first floor. The blaze, which probably originated from a cigarette stub, was burning briskly but the fire ladders soon had a line of hose playing on the flames and soon extinguished the fire. The damage was small.

## Sixteen-Year-Old "Golden Voice" Kansas City School Girl Wins Praise Of Best Critics

NEW YORK, November 10.—(By the United Press)—Miss Marion Talley, 16-year-old "golden voice" Kansas City school girl, said today she would attempt to obtain the glory that is Farrar's and refused to be awed by New York art critics.

"Why Convention Hall in Kansas City is larger than the Metropolitan Opera House," she said in an interview with the United Press, explaining why she was not nervous when she walked out on the great stage and in the presence of the theatre "pulled the world's greatest music authority out of their seats."

"I sang in opera many times in Kansas City before big crowds," she said. Miss Talley admitted she is disappointed in New York. "I expected to see much more hurry and bustle than I really did. The streets at home—Main and Grand and Walnut—are just as busy as these here. The 'girl wonder' however, was quick to defend New York women, touting as being cold and devoid of love for children. "Just look at the large number of women you see on the streets here wheeling baby carriages. You don't see half that many at home. Otherwise though she compared New York with her home town and found the former wanting, Miss Talley announces she would remain in New York four years studying music and foreign languages and perfecting herself for her operatic career.

"Gertrude Farrar is my inspiration. I have never seen her, but I want to be like her," she said.

There is still ringing in the school girl's ears the praise of the world's critics proclaiming her a possible star of all the operatic firmament.

Marion Talley yesterday on the bare shadowed stage of the great Metropolitan Opera House moved Gatti Casazza, Moranzoni, Otto Kahn and others, to extravagant praise with a marvelous lyric soprano that was almost coloratura. Friends who had brought the girl east, succeeded in persuading Kahn to hear her. By good fortune several prominent directors were present at the trial singing. It was conducted in the great gloomy opera house under conditions that would not have encouraged the greatest artist. The accompanist began to play the smooth introduction of the aria "Knowest Thou The Land," from Mignon, and Marion, sang clearly in a beautiful lyric soprano, and as the song came to an end, Moranzoni, Moranzoni and Gatti Casazza turned to each other excitedly to see which would praise her the highest. Otto Kahn walked across to Marion's parents and said: "Nature has been very good to your daughter. She has given her everything."

## DO YOU WONDER, ASKS THIS LADY

"That I'm a Believer in Cardui?"  
"Got So Weak She Had to Go to Bed—But Read Her Story"

Osawatimbe, Kans. Mrs. E. E. Keist, formerly of Illinois, residing here, says: "We moved to this state eleven years ago, and I had good health for a long while; and then some year or so ago I had a bad spell."

"I got so weak I couldn't go. I couldn't stand on my feet at all. I had to go to bed."

"I suffered a great deal. I was so nervous I felt I couldn't live. I tried medicines, and everything, but the best of attention, yet I wasn't able to get up."

"I lay for three months, not able to do anything."

"My husband is a bill poster and has a circular distributor. One day there came to be a Ladies' Friendly Alliance among his circulars. I read it, and told some of the family to get me a bottle of Cardui. They bought and said I wouldn't take it. But I did. I began with a independent every two hours."

"I quit all other medicines and took in Cardui faithfully, and two weeks from the time I began to take Cardui I was out of bed better than for months."

"I kept it up and continued to improve until I was a well woman. Do you wonder that I am a believer in Cardui? I certainly am. And I am sure there is no better food made for women than Cardui."

All druggists sell Cardui. For women, an advertisement.

Ford has specified that all the Chinese boys who received training must have been born on American soil. This decision to train Chinese boys, gave rise to the reports in Shanghai that Ford was planning establishment of a manufacturing plant in the Orient.

## Adams County Dry As Powder

MANCHESTER, Nov. 10.—The dry majority in Adams county with five precincts not reported is 3575. Unofficial figures from these precincts it is thought will bring the majority to 4,000. The county gave a dry majority of about 3,000 in 1920.

The 2-mill levy for the public highway that meant so much for the whole people is in doubt but probably lost. Manchester's heaviest taxpayers worked loyally for it, using their own funds for personal expenses. It was probably lost sight of in the exchange for dry votes. Dry voters considered it an economical measure but did not support it.

## MRS. WM. ZORNES IS BADLY SCALED

Serious burns about shoulders, back, hips, and arms were suffered by Mrs. Ella Zornes, 44, wife of William Zornes, 1116 Front street, Thursday evening when she fell in a faint near her kitchen stove and caused a kettle of scalding water to spill on her.

She was alone at the time and she had been busy washing the dishes after the evening meal. She had been

scalding the dishes when she suffered a fainting spell and fell to the floor. She held the kettle of water in her hands and in falling it spilled over her shoulders, back, hips and arms.

Mrs. Hulda Day, neighbor, heard Mrs. Zornes fall and she rushed to the Zornes home to see if any help was needed. She found Mrs. Zornes

prostrate on the floor with the steaming kettle nearby. Richards' ambulance was called and Mrs. Zornes was removed to Hempstead hospital where City Physician T. C. Crawford attended her.

She spent a good night and today was reported improving, her burns not being deep or of a dangerous nature.

## Missionaries Tell Of Conditions In Africa

Persons experienced in the conditions of Africa, where numerous missionaries are hard at work, were speakers at the Second Presbyterian church where the first of a series of meetings to be held in the Presbyterian churches throughout the state was held, with sessions in the afternoon and evening. These meetings are being held to interest the people of the Presbyterian church in the great need of the African field. The speakers were Miss Jean Mackenzie, former missionary and authoress, Roland Evans, returned missionary from Africa, Dr. W. D. Hadunt, pastor of the First Presbyterian church at Youngstown and Secretary W. H. Patterson of St. Louis, a secretary of the Foreign Mission Board. Rev. Hadunt and Secretary Patterson were members of a commission that recently investigated conditions in the missionary fields of Africa.

The meetings here yesterday were well attended by local Presbyterians. Dr. Hadunt was the main speaker at the night session.

Of the character of the African of today Mr. Hadunt spoke very highly. He said that the negroes are an exceptionally good natured people and that they are more the less hospitable. In traveling through the African forests, he said, that he always found the houses of the natives at his complete disposal. "The home of the native," said Dr. Hadunt, "is as a rule not much of a house, but what it is open to the white man. The houses are chimneyless, windowless, floorless, and furnitureless with the

exception of a bed rudely constructed of bamboo."

Dr. Hadunt continued, "The negro, strictly speaking, is not black. He is brown. Personally, I think that that coloring is merely a matter of individual taste. The color of a person does not matter. I would rather be a black man with a white heart than a white man with a black heart. We speak of the superiority of the white man. Why, the blackest page in the history of civilization is found written on the pages dealing with the treatment accorded the negro by the invaders of his land. The deeds make us hold our heads in shame. The black man was wrongfully accused and his women in their pitiful innocence were outrageously violated by people reputed to be their superiors. If for no other reason, we should send missionaries into this land and see that they are properly cared for to justify ourselves; to show the negro that all white men are not hounds; that at least some of us have some regard for decency; that some of us are really Christians."

Dr. Hadunt spoke at length on the queer customs of the mysterious continent. He told of the weird superstitions upon which their child-like religion, a religion of fear, is founded. He described their peculiarities of dress, their quaint amusements and dances and their willingness to learn the word of God. He told of their demoniacal traits of cannibalism and polygamy. He told of the harrowing life led by the missionaries. He spoke of exposure to dreadful tropic diseases, such as malaria and the black water plague and of the unpleasant climate conditions to which the heroic missionaries

are constantly toiling for the salvation of souls.

His splendid address last evening dealing with his unique, colorful and romantic experiences in Africa spiced with his inimitable sparkling wit and broad and gentle humor; the truth of his message and the earnestness of his appeal brought home to his listeners the need of the African Mission fields.

W. H. Patterson of St. Louis, another member of the Presbyterian commission which recently toured Africa, told in an interesting way of his experiences. Roland Evans a returned missionary gave a most entertaining talk of his experiences.

**Afternoon Session.**  
In the afternoon Mrs. Irving Drew who was chairman, presented Dr. Hadunt, one of the secretaries of the Foreign Board, and he presided over the session.

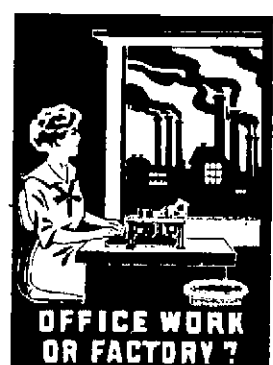

Mrs. James T. Breese sang "My Task," accompanied by Prof. Elmer Ende.

Roland Evans, returned missionary from Africa, was the first speaker. Mr. Evans told of being raised in Gallia county, where his father held a pastorate in the Calvinistic Methodist (Welsh Presbyterian) church for many years. "I feel like I had come home," Mr. Evans said.

Rev. W. D. Hadunt, D. D., pastor of the First Presbyterian Church of Youngstown, O., a member of the commission recently returned from a tour of the African Mission Fields, and Secretary W. H. Patterson of St. Louis, another of the board's secretaries, and a member of the commission, and Miss Jean Mackenzie, former missionary and well known author, were the other speakers.

At four-thirty tea was served to speakers and guests.

## New Congress Will Over Ride Presidential Veto Of The Soldier Bonus Bill

(Copyright 1922, By United Press)  
**WASHINGTON, November 10.**—(By the United Press)—The new congress will override any presidential veto of the soldier bonus bill thus insuring its enactment, it was shown by a compilation of the membership strength of the new congress.

A careful poll of the senate as it will be constituted after next March 4, based on the attitude of old senators of the present congress and the pledges of new members made shows 67 senators favor adjusted compensation; 27 against it, and the position of two unknown. A total of 67 votes for bonus, three more than two-thirds of the senate—the number required to override the veto. In the house which overrode President Harding's veto of the measure last September shortly before the senate blocked the measure by sustaining the president's objection, senate is still in favor of the bill. The Democrats gained nearly 75 seats in the lower branch and the majority of these are known to be for the bonus. The soldier bonus is certain to be re-introduced shortly after convening of the new congress which probably will be called into special session shortly after March 4, 1923. The measure also will be introduced again in the present congress, but it is extremely doubtful if it can be enacted during the few remaining months of current session. The American Legion greatly encouraged by increased majorities for the measure in both houses and favorable vote for state bonus in Illinois, Iowa, Kansas and Montana, is preparing to launch a new drive for the federal bill. Success for the bill, when it comes up in the new congress will depend entirely on the senate. Of the 18 new members elected to the senate, 15 are for the bill, the attitude of two unknown and only one is against it.

## Couple Detained; Deny They Had Eloped; Girl Is Sent Back To Parents At Peebles

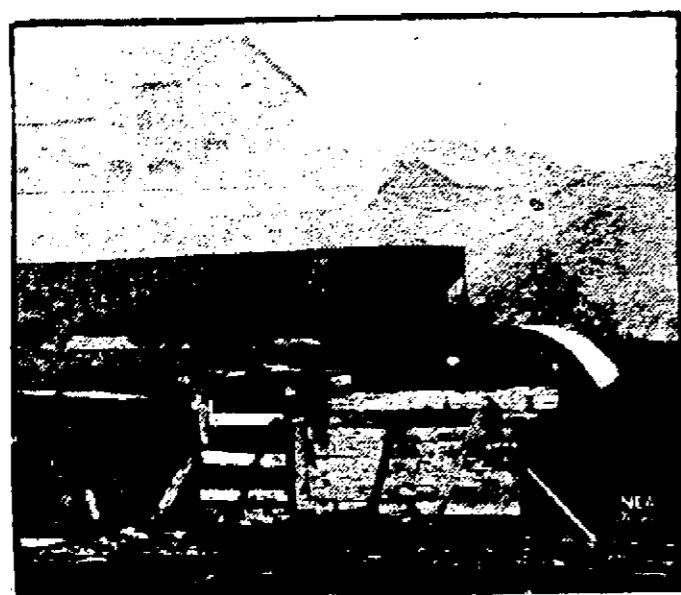

At the instance of the girl's father, W. F. Carskadon, prominent Dunbarville farmer, county officers Friday took into custody Miss Opal Carskadon, 17, and Lee Rotroff, 20, shortly after their arrival in the city on N. & W. local passenger train No. 38 from Peebles.

The couple were taken to the county jail office, where they were detained until this afternoon when Rotroff was released and the girl was sent back to Peebles on instruction from her parents.

The young couple denied that they came here in pursuance of any pre-arranged plan, the girl claiming that she became tired of her studies in school and decided to come here and seek employment while Rotroff, who is a son of John Rotroff, prominent Peebles hardware merchant, declared he came here on a business errand. Both insisted there was no attachment between them and scoffed at the suggestion they had eloped with the intention of marriage. They stated that their meeting on the train was a mere coincidence.

The girl admitted that she left without the knowledge of her parents, declaring that she made up her mind to come to Portsmouth while on her way this morning to Peebles where she is attending high school.

Furthermore, she claims, that Newman for a long time past has treated her with coldness and indifference, told her that he did not love her and would not live with her. Furthermore, the wife says, that Ferguson without the least reason, is extremely jealous of her and declares that he frequently cruelly assaulted her during the time she lived with him, the last time in November, when she says, he beat her.

The wife secured a temporary injunction tring up the defendant's wages in the hands of his employers, and restraining him from disposing of their furniture and household goods. On her application for temporary alimony, Judge Thomas today ordered Ferguson to pay her the sum of \$12.50 a week.

## In a Washington Park

Nuts are so plentiful in the nation's capital that squirrels have become lazy and fat. No searching for food. Life consists of waiting to be fed along with the pigeons. And both have many friends to contribute to their support.

Malaria, now known to be caused by an animal parasite, transmitted to man by mosquitoes, was supposed formerly to be due to a poisonous emanation from the soil of certain localities. The willow is one of the most widely distributed of trees, there being at least 160 known species though doubtless there are many more varieties not yet separately identified.

## A Gas-Poisoned Body Removed From the Pit

Here is shown the body of a dead miner in the Spangler horror being tenderly lifted from a temporary litter on which it had been borne from the gas-filled pit by rescue parties. ## Father Seeks Return Of Family Taken From Him By Court Order

**NEA Service.**  
**CONNERS FERRY, Ind.**—Albert C. Sundsno, 50-year-old carpenter, of this town, is fighting to have state authorities return wife and five children to him. They were taken from me because I had too many children," he says. "Why else, I do not know."

By an order from Judge E. H. Henderson of Boundary County, they were taken to the home of the feeble-minded at Nampa, Ida.

"And," says Sundsno, "the only way I can have my family back is by submitting to an operation which would forestall the birth of any more children."

Sundsno is perplexed. He cannot understand the justice of this enforced separation. So he has appealed to Senator Borah of Idaho for help, and has instituted suit in the district court for the return of his family.

**Wed Eight Years**  
 "Some eight years ago," explains Sundsno, "I married Anna. From the time of our marriage we have been happy and contented. She is a kind and loving woman and though she may not be called an intelligent reader, nor talented in any way, I have always thought her a very practical woman, full of common sense."

In those eight years, Mrs. Sundsno gave birth to seven children. Two died.

"Up to now we had no trouble," continues Sundsno. "Suddenly she is taken, with the five children, and committed to an asylum."

"The trouble was this: five children, two of them only babies, were too much for my wife to keep scrupulously clean at all times. Maybe sometimes the house was not as clean as it might have been. My wife had more work than she could do."

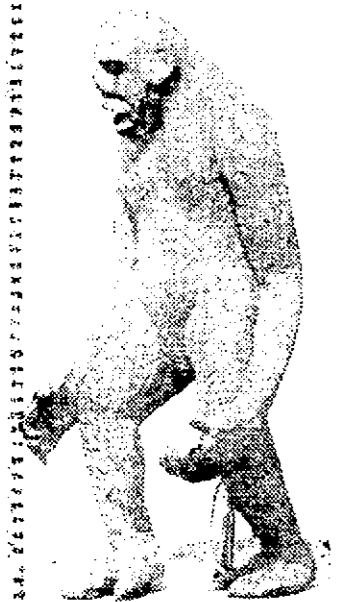

"Someone reported the case. Then the sheriffs came one Sunday morning, and took away my wife and the children."

**Investigators Report**  
 "When the judge read the court order to me, it stated two doctors had come before him and said that our home had been found in an unsanitary condition, that our oldest boy was not as bright as he should be and, therefore, we might have more children mentally below normal."

"But Sundsno cannot understand why his wife and all his youngsters were taken from him. The other children, he argues, have not been declared subnormal."

"It all seems so horribly unjust," cries Sundsno. "I feel that my wife and I have been greatly wronged."

but the parties failed to come back Friday which led the court to the belief that they had amicably settled their trouble.

# The House That Is to Be Dedicated to Ghosts

*It Is the Haunted London Home of the Late W. T. Stead to Which, His Daughter Says, Her Dead Father Frequently Returns.*

"My Experiences with Ghosts Have Been Very Agreeable," Says Miss Estelle Stead, Who Turns Over Her Father's House for Carrying on Psychic Research.

father of the occurrence. Three nights later he appeared to me and my father in the library and then told us who he was. After that he made many visits. We looked him up and discovered that he had lived in the house just when he said he had and we also found some of his verses, which are quite good."

Miss Stead also tells of a visit paid her father by Li Hung Chang, the famous Chinese statesman.

This "Spirit" Photograph of W. T. Stead, Taken in the Library of His Late Residence, Is Vouched for by the British Society for Psychic Research.

The "Spirit" Portrait of the Late Prof. Hyslop Which Appeared on a Photograph Taken by a Disinterested Photographer, William M. Van der Weyde. He Made It at a Seance in Which Marie Haviland, a Trained Nurse, Was Placed in a Trance, as Shown in the Foreground. A Committee Supervised the Photographing. The Members Were: Walter A. Roberts, President of the Writers' Club (left foreground); Dr. Edward F. Bowers, in Whose Home the Picture Was Taken (left background); Miss Eleanor Ramos, Editor of "Saucy Stories," and Mrs. Robert T. Scott. This Photograph Will Be on Exhibit in the "House That Is to Be Dedicated to Ghosts."

she has the photograph, a copy of which is published on this page, showing the presence of her father's spirit in the library of his late residence when the spirit photographer snapped him.

This library also has been turned over to the ghosts. It is here that Miss Stead and her friends who believe in ghosts hold their seances. Around its walls are book shelves holding a thousand volumes on the subject of spiritualism. All of these are offered as a sort of a public library on things ghostly.

## "Believers" Are Conservative

The members of Miss Stead's circle are professional, business and wealthy folk who will give you sincere and very convincing testimony to the truth of their statements that ghosts are ghosts and can and do make themselves visible and communicative at the proper time and place. What they have done, they'll inform you, is merely to give their incorporeal friends the proper place and appointed times when they may so manifest themselves. They speak of the coming visit to headquarters of this or that ghost in the tone of voice that one who doesn't believe in spirits might announce the coming of a cousin by marriage. They become wroth only when "double exposure" or "double negatives" is suggested as an explanation of the weird "spirit" photographs, two of which are printed on this page.

But, as the "spirit photograph" at the top of this page bears witness, belief in ghosts has almost as much strength here as in England. Many of the most conservative thinkers and persons known as unbelievers have been convinced that there is "something to it." Among those are the witnesses to the taking of the forementioned "spirit photograph" of the late Prof. Hyslop, produced in the course of an investigation conducted by Dr. Walter F. Prince, Chief Investigator of the Psychical Research Society.

When they exhibit this photograph they will remind you, with a pardonable ring of triumph in their voices, that Prof. Hyslop is the same psychologist and spiritualist who promised he would return after death and disclose himself to those who have faith. They will also recall to your mind the report that a week after his death he appeared at a banquet held in his honor and gave an automatic message through one of the psychic guests.

The circumstances attendant on the spirit photograph of the late professor are enough to give even the most incredulous pause. It was taken in the home of Dr. Edward F. Bowers of No. 225 West End avenue, New York City. Those

present included Dr. Bowers, Miss Marie Haviland, a trained nurse, whose hypnotized mind conjured the supposed ghost; Mrs. Robert T. Scott, who didn't believe in spirits; Miss Eleanor Ramos, editor of "Saucy Stories," a magazine which doesn't publish spirit literature, and Walter A. Roberts, President of the Writers' Club and editor of the "National Pictorial Monthly."

The photographer, William M. Van der Weyde, who took the picture, was a wholly disinterested party to the act. He was called in because he was known to be an expert in his line and he was given the plates for the exposure five minutes before he actually took the picture. He declares that after he made the exposure the plates were taken from him by the committee to be locked up overnight. In the morning they were brought to him in his studio, where he developed them in the presence of the committee, and disclosed the "ghost."

But, in order to prove once and for all that spirits can be "caught" by a sensitized photographic plate, Miss Stead, in addition to throwing open her library of 1000 books on spirits, will, this winter, open to the public a private studio she is having constructed at some expense in the old garden to the rear of her home in which every facility for photographing spirits will be installed and every possible loophole for trickery will be eliminated.

Unlike the great majority of those who are enthusiastic in the post-war psychic phenomena, Miss Stead and her late father entertained ghosts long before the death of millions in the war accelerated the spiritist movement to its present unprecedented popularity. She says she has received numerous visits from the other side.

## Visits from a Ghost

"My experiences with ghosts have been very agreeable," she says. "The first one who called on me was a poet named Gordon Knight, who lived in the house 200 years ago. He called shortly after we moved in. I was awakened in the night by the violent slamming of a door. Then I heard someone or rather, felt someone, enter the room. I sat up in bed. As I looked I saw the figure of a man garbed in the style of another period, a huge soft hat and a black cloak being the outstanding features of his dress, walk into the beam of moonlight which streamed in through the French windows. He walked to my writing desk and began to write. For twenty minutes I watched him, transfixed. I was not terrified. I was deeply interested. Finally he arose and vanished. In the morning I told my

"While Father was dining out one evening a Chinaman, whose appearance convinced me he was Li Hung Chang, called on me. I asked him if he were Li Hung Chang. He bowed and smiled and said he wanted to communicate with my father. I told him Father would be home later. He went away. I retired without seeing my father. But in the morning my father informed me that the first to write an automatic message through his hand that evening before was the spirit of the Chinese statesman."

Miss Stead declares that her father visits her

A Photograph of the Late Prof. Hyslop Which Shows the Resemblance to His "Spirit" Photograph.

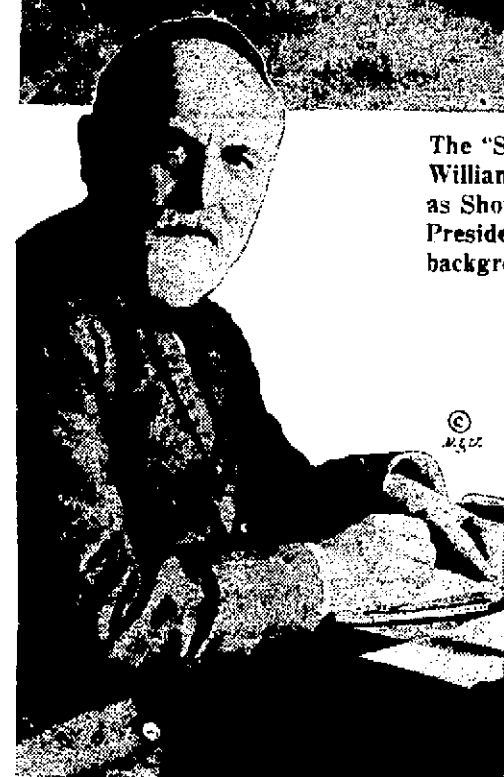

regularly and that he is dictating to her the chapters of a book she will name "The Blue Island," which recounts the experiences her late parent is having on the other side of the veil.

But, convincing as are these photographs and the statements of witnesses who saw them taken, there are those who claim that the so-called "spirit" pictures are faked either by double exposure of the plate by means of an X-ray, or by the old trick of the double negative. By the latter device the expert photographer is enabled to present pictorial "proof" of New York with water-filled streets and to make possible the visual paradox of some star in the motion pictures simultaneously playing three roles.

The Scientific American, October issue, contains an "exposure" of spirit photographing. James Black, the writer, is unsparing in his criticism of Sir Arthur Conan Doyle, who has espoused the research movement into "spirit" photography. He cites how William Hope, the "leading psychic photographer of Great Britain," whom Sir Arthur sponsored and vouched for was "exposed." A Mr. Marriott, a London photographic expert, challenged Hope to a test sitting, but never got it. But another investigator did, however, arrange for a fake picture. This is how Black describes what happened:

"Mr. Edward Bush, a member of the S. P. R. (British), arranged a seance with Hope and sent him a photograph of a man Hope presumed to be dead. At the first sitting a spirit message came through, the second produced a spirit picture of the subject of this photograph. This is doubly remarkable; the subject was the son-in-law of Mr. Bush, who was alive and well! The message received was in the same handwriting as that of numerous other messages received through the same agency, and carried the same error in spelling, too. This message has been admitted to be a forgery; but Hope and his adherents still insist that the picture is quite genuine."

W. T. Stead, Whose London House Is to Be Dedicated as the Habitation of Disembodied Spirits.

ACCORDING to the dictionary, a haunted house is a place subjected to visitations from the world of spirits. In the popular imagination it is a ramshackle wooden structure, shrinking behind dusty hedge-rows, with broken windows invaded by the branches of trees through the tops of which the wind sighs in melancholy manner, or a dilapidated brick structure, stern and forbidding, with cold marble floors and metal banisters clammy and terrible to the visitors' touch.

But over in London, which seems to be just now the mecca of those who have been caught in the war-inspired interest in spirits and psychic manifestations, they have a different conception of a dwelling inhabited by the souls of those who have separated from the fleshy envelope called the body. They have neither terror nor curiosity for such a habitation. In fact, they have given ghosts a headquarters. The 200-year-old residence in old Smith Square of Miss Estelle Stead, daughter of W. T. Stead, has been turned over to ghosts and this winter it is to be dedicated with formal ceremonies.

Thus the invisible, save to the psychic, denizens of the world beyond the veil have been given a headquarters where they may meet and hold converse with those in the flesh. The spirit of the departed owner of the mansion will preside when the spirits hold a meeting. That he has never left the dwelling is the statement of his beautiful daughter. And to prove this assertion

# State And Chicago Clash Tomorrow

COLUMBUS, Nov. 10.—Another big crowd will pour into Ohio Stadium Saturday when Ohio State and Chicago University football teams struggle over the hump of the season. It will be Chicago's first visit to Ohio. Advance sales of seats indicate that close to 40,000 people will witness the game.

Chicago, undefeated in the Western Conference, is again headed for the coveted goal where championship honors await. Nor have the Maroons forgotten that for two years in a row

they have been in their present position on the eve of encountering the battling Buckeyes, by whom they were forced off the main path in starting last-quarter assaults.

Ohio State, on the other hand, is out of the race for the first time in six years. The Buckeyes have already been twice defeated in successive "Big Ten" games, something that hasn't happened to them since 1914. But Columbus fans are excited nevertheless over this Chicago

contest. For a different Ohio State team than the one that succumbed to Michigan and Minnesota will take the field against the Maroons.

Perhaps no "Big Ten" coach ever tore his line-up so completely asunder in mid-season as has Coach Wilce since his return from Minnesota. "Fighters" have been getting the call at every turn during the past two weeks. Players who were regulars are now fighting to get back into favor.

# P. H. S. IS ALL SET FOR CHILlicothe HI TOMORROW; GAME WILL START SHARPLY AT 2:30

## Local Eleven Is Using New Plays

"Bring on Chillicothe!" is the cry of the P. H. S. warriors who held another hard scrimmage workout on the sixteenth street field Thursday afternoon. Chillicothe high plays the Red and Blue warriors here tomorrow afternoon and the Red and Blue mean to make the Blue and White colors of Ross county run this week sure. The Chillicothe eleven got away to a bad start this season but during the last few weeks has improved wonderfully and the team now is one that will give P. H. S. a real battle.

Captain Tommy Brock saw the Chillicothe team in action at Washington C. H. last Saturday and while he missed the great P. H. S. victory over Chillicothe he obtained some idea of the style of play used by the Blue and White and his trip is expected to prove of some value with the locals stopping some of the Chillicothe team's trick plays. Captain Brock who is recovering from a broken ankle bone is out in uniform and running signals but is not taking part in scrimmage. He hopes to get into the game before the Turkey Day battle.

Coach Eccles has the locals working like a well oiled machine and says who have not been getting a chance to take part in the big games are sure to get their chance from now on. They are out there working hard and hard work has to be rewarded according to Coach Eccles. Barklow and Phillips are to remain at half with Maffa full and Ellsesser quarter. Yesterday during scrimmage, Ellsesser took the second team squad under his command and they succeeded in scoring a touchdown on the regulars showing that the directorship of the team has a lot to do with the making of a team.

The P. H. S. eleven has changed its system of attack during the last two weeks and this is sure to bring more successful results for it is a varied attack that will be hard to solve. The team has perfected a line back and run and aerial game until either of the three can be worked with equal success, and this means the opposing teams will have to keep on the jump to stop the P. H. S. onslaughts.

The P. H. S. eleven will take the field with the regular line, Monk and Manning ends, Moritz and Armstrong tackles and Campbell and Flowers, guards.

## Deprived Of Title

PARIS, Nov. 10.—(By The Associated Press)—"Batling" Siki, the Senegalese fighter, no longer holds the title of light-heavyweight champion of France.

This ruling was made today by the French boxing federation which in addition suspended the fighter for nine months during which period he can neither engage in a boxing match, act as manager or be a second in any bout organized under the rules of the boxing federation.

PARIS, Nov. 10.—(By The Associated Press)—The French boxing federation today suspended "Batling" Siki the Senegalese fighter, for nine months for his conduct at Premier-Ballie fight last night when he struck Premier's manager.

The subject was under discussion by the federation for a long time and it was finally decided to permit Siki to meet Beckett in the fight scheduled Dec. 7 at London, articles for this match having been signed before the incident for which he is penalized.

## Cubs To Enlarge Park

CHICAGO, November 10.—The Chicago National League baseball park will be enlarged to increase the seating capacity from 17,000 to approximately 22,000 at an estimated cost of \$200,000, William L. Veck, president of the club, announced today. Work will begin immediately, he said.

New sections for the grand stand, lengthening of the foul lines from the present 340 and 290 feet to 360 feet, increase in the size of the playing field to make it the largest in the United States; and a cutting away of three feet of earth from the surface of the field, President Veck declared would make the park the best baseball plant in the country.

## Conference Teams Busy Tomorrow

COLUMBUS, O., Nov. 10.—(By The Associated Press)—Armistice Day will find Ohio conference football teams fighting only one major battle. Numerous interesting games between various teams were expected but the single contest in which a leading position in the conference standing may be affected will be between Mt. Union and Miami at Oxford, Mt. Union holds the lead jointly with Ohio Wesleyan and Oberlin, but the Wesleyan eleven will meet Michigan Agricultural college at Lansing in a non-conference game and Oberlin should have little trouble in adding another victory to its unbroken string at the expense of Case at Cleveland.

Denison, wreckers of the hopes of at least two title contenders, will have no championship aspirations upon which to work tomorrow in facing Cincinnati at Cincinnati but a hard contest was expected.

Akron, regarded as one of the stronger of the conference teams, was expected to turn in another victory over Heidelberg at Tiffin and Reserve, which had its first taste of anything but defeat last Saturday, has hopes of another triumph against Ohio Northern at Ada tomorrow during a homecoming game.

After two consecutive defeats, Wittenberg was expected to turn the tables against Otterbein at Springfield. Otterbein, however, has a fast and smooth-running combination and may give the Springfield team some trouble.

A game between Keaton and Wooster at Wooster, completes the day's conference activities. Wooster, although defeated by Denison a week ago, is out to avenge defeat at the hands of the Gambler eleven last year and is regarded as the favorite.

Wilmington, a strong non-conference eleven, is scheduled to play a double header this week-end. The Quakers expect to use the overload game with success against Salem at Salem, W. Va., today but expect a harder game with Georgetown, Ky., tomorrow. Two West Virginia teams will have Ohio opponents tomorrow, Ohio playing the strong Bethany college team at Wheeling, and Marietta journeying to Clarksburg for its annual game with West Virginia Wesleyan. Baldwin-Wallace will play Dayton University at Dayton, Hiram and Muskingum will be idle.

## K. OF C. LEAGUE

The Big Five took two out of three from their opponents the Eukras on the Pennant Aliens last night, the totals of the contests being 2134 to 2028. Jimmy Diller starred for the Big Five, breaking the league record for piling a total of 327. Lewis of the losers scored 520. Games in this league will be played on Tuesday, Wednesday and Thursday of each week during the season.

## Gibbons Willin'

CHICAGO, Nov. 10.—Tommy Gibbons, St. Paul light heavyweight, has asked for a chance to take the place of Battling Siki against Joe Beckett, English heavyweight.

The Siki-Beckett match was set for Dec. 7 in London, but was barred while the French boxing commission suspended Siki for nine months and took away his crown as light heavyweight champion because of his conduct at the Premier-Ballie fight, when he struck Premier's manager.

## W. And J. Has Won 18 Games In Row

WASHINGTON, Pa., Nov. 10.—Coach Greasy Neale's victorious Washington and Jefferson football team, which on Saturday by a game struggle defeated Lafayette, 14 to 13, at the Polo grounds, New York, has four more games to play and a fair chance to pass through the season without being defeated. Washington and Jefferson now has played eighteen games without losing, the record extending back into the latter games of the 1920 season.

To close this year with a record of

not being defeated in twenty-two games Washington and Jefferson must tie or defeat Wabash college of Wabash, Ind., here next Saturday. Wabash defeated Purdue on Saturday and has been downed only once this year. Purdue scored the only touchdown which has crossed the Wabash goal so far in 1922.

Washington and Jefferson then meets Pittsburgh, a foe whom Neale's men defeated last year. Thereafter Washington and Jefferson plays Detroit and West Virginia.

## SMOKEHOUSE TO PLAY CHILlicothe

The Smokehouse team journeys to Chillicothe Sunday where they meet the Red Chillicothe eleven. This should prove to be a real scramble on the old gridiron, as both teams have played some classy football in previous games. The local team has

practiced faithfully this week and has some new plays up their sleeves which should gain many yards. Every player is in the best of condition, excepting Dewey Adams who was injured recently but he probably will be back into the lineup Sunday.

## Huntington After State Championship

HUNTINGTON, W. VA., November 10.—A topic of chief interest and one that is being discussed in most every part of the city is, what is Huntington's chances for the state championship.

By virtue of a victory over Parkersburg on the latter's field last Saturday, and the return of rare form to the Huntington High gridlers, the chances appear at this time to be very bright. Going to Parkersburg with a team that was not expected

to win and instead to lose by thirty-four points, according to the Parkersburg sport writers, the red and blue of Huntington upset the dope can and came away with a 13 to 7 victory and thus put in their undisputed bid for championship laurels.

At this writing there appears two foes that will have to be combated and overthrown in order that the state championship might be brought to Huntington. These two foes are Charleston and Clarksburg high.

## Green Notre Dame Team Faces Eight Hard Games

Coach Knute Rockne of Notre Dame is one of the dramatic figures of the present football season.

After producing great teams at Notre Dame during his four years as head coach—teams which lost but two games in four years, and which won three consecutive games from West Point, Nebraska, Indiana and Purdue, Rockne found himself shorn entirely of the masters of the game who made history in 1921, when the football squad returned.

Ten men of that team had been picked for all-America by some expert or other. Paul Custer, who broke into a 50-50 division of the right half position as the season closed, was the only regular who remained.

In the meantime, Rockne, who is also director of athletics, track coach and almost every other thing there is in Notre Dame athletics, had scheduled Georgia Tech, Army, Nebraska, Carnegie Tech, Purdue and Indiana for major games. Depauw and Butler were regarded as soft spots. St. Louis and Kazoo as setups.

Kazoo acted nobly, but St. Louis refused to be walked on. Then Depauw tied Indiana and Butler beat Illinois. Carnegie Tech tied and outplayed W. and J. So, beginning with Purdue, Rockne faced eight hard games in a row—faced them with a team composed mostly of sophomores. And during the Purdue game he lost his most valuable line-man for the season—Tom Lieb—who went down with a broken leg.

Did Rockne quit? It was then that the wonderful personality which more than any other factor results in Notre Dame's greatness in football asserted itself. He told his men that he would be hard to satisfy from then on. That they must make

up for lack of weight and lack of experience by something else—the something else which had given Notre Dame teams the title of "Fighting Irish."

"I don't want men who will go in and die gamely," he said. "I want men who will go in there and fight to live."

## To Meet Stivers Hi

The Huntington Hi team will play Stivers in Dayton Saturday and no doubt will meet some tough opposition in the Daytonians, who have a rattling good team.

ST. LOUIS—The football game between the University of Tennessee medical eleven and Washington University has been cancelled because many freshmen are upon the Tennessee team, a violation of the eligibility rule.

NEW YORK—Babe Ruth will spend the winter "back on the farm" chopping wood and getting in condition for the 1923 campaign.

## BOOKS THROUGH PEOPLE

**LIVER WENDELL HOLMES** says somewhere that "Society is a strong solution of books. It draws the virtue out of what is best worth reading, as hot water draws the strength of tea-leaves." This is a statement destined to open the eyes of those pedants who believe that all learning lies in the dusty shelves and alcoves where books abound.

It is surprising how many persons quite the reverse of scholars have ideas on current literature and even that of a bygone day. The second-hand book shops do not flourish for the professional student alone. Therefore, instead of steeping himself in his own books with only his own set of faculties to guide him, it was Holmes' idea to get close to people, common people, and read books through their eyes. Choose them when they are "good-natured and expansive, as they are apt to be at table," said Holmes.

In this suggestion lies hope not only for the scholar, in furnishing him a new and pleasant means of learning, but for the man who has only brief intervals to give to books. Even though he has little time for learning, his opinions are not worthless. He will learn, too, by this concentrated method already indicated, when he makes a point of getting close to many people and sharing their point of view.

## CAN YOU IMAGINE IT?

A bridge across the Hudson river is to be built, and it will cost at least a hundred million dollars. As an engineering feat, this will surpass the Panama Canal.

Besides the stupendous sum for the bridge itself, an outlay of 115 million dollars is estimated for the suspension towers. These towers will rise 685 feet in the air, and the cables they hold up will support a steelwork structure of 400,000 tons.

Figures such as these stun the imagination. Man cannot think about big figures. True, he may have them for his slaves, he may amass the sums which they represent, but actually the abstract figures are a mystery to him.

Yet the bigness of this new project, which probably will be completed in 1940, fascinates. When it is learned that more steel—450,000 tons—will go into it than the steel in all the bridges over the Mississippi, Missouri and Ohio rivers, there is something, a pictured comparison, that the average person can imagine.

## IN DANGER AGAIN!

**TODDARD** makes the startling assertion in a recent book that a large proportion of the human race is incapable of civilization. Great numbers of people actually prefer a state of savagery to being civilized. If this is true, it furnishes sufficient explanation for crime waves and wars and all the other things that indicate a strange lack of progress in a world where progress should be swift.

It is disconcerting to think that the upward course of civilization is retarded by the vast multitude unable to appreciate it. It is not too much to say, however, that although a large proportion of the human race may be unable to bear the responsibilities of civilization, it is very evident that a large proportion of these are eager for its benefits. They heartily enjoy its privileges, although they unwittingly fight against it. The crowds who long for the simple life of nature are not overwhelmingly great, and among these the longing is temporary enough to be cured by a few weeks of vacation.

It is easy to judge from external appearances. Perhaps they do indicate that we are all savages—or almost. But within the heart of man is an irresistible desire for advancement that is the effectual guarantee of a constantly ascending civilization. A thoughtful study of history and contemporary life leads inevitably to this conclusion.

Moreover, although there are few leaders among the crowd, there are hosts of good followers. The people have usually been successful in choosing the best leaders available, and few ages have been unable to furnish the right kind. Civilization will continue somehow, after all.

## New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, November 10.—Thoughts while strolling around New York: Lower Broadway. Jog-trotting bank messengers. The Ascot tie flourishes down here. The dead calm of Trinity. Wall Street's narrow canyon entrance. There goes Henry L. Doherty. One of America's richest bachelors. Pigeons on the subway kiosks.

The row of steamship offices. Immigrants huddled along the curb. A vegetarian restaurant. Custom House. Doddering old dodgers carrying banners for passport photos. Bowling Green—the city's oldest park. The rhythmic clomp-clomp of hoofs. Market wagons going to the ferries.

A painter daubing his impression of the harbor. Battery Park benches are always filled. And the Aquarium still lures the sight-seers. I could look at the sea horses for hours. A group of Japanese sailors. Apple women along every path. A giant liner fading on the horizon.

There is an immense dignity about this lower tip of the island. Wonder what the fellow is doing in a green velvet jacket? I like the brusque manner of sea-faring men. Nothing guileful or secretive about them. They live close to the great mystery.

Broad street's hub-bub. Crisp business suits. A galvanic atmosphere. Fortunes come and go with the tick of the tape. Hello! There's a strolling street band. Ancient, winding cow-paths now bulging with life. Scurry push-cart men watching trade with one eye and cops with the other.

The old post-office. Mountain high piles of sacks. The glitter of Park Row. Basement pool halls and upstairs shoe shops. Mirrored cafes with hopping waiters. A hatless old woman harangues a crowd of hoodlums. The hurly and hurly of life at top-speed.

And around the corner a peaceful colonial home. This section is teeming with contrasts. Sham and substance. Lights and shadows. A black-headed sausage vender hugging his wares. A golden-haired girl flirts with a pouting conductor. A slovenly wife berates her husband from an upstairs window. A Chinese laundryman chases an archer with an iron. The stroll ends.

New York is cheered by the announcement that on a recent Sunday there was not a single motor car accident. The chief medical examiner and his staff are unable to recall a similar record. The nearest record to this was one hot Sunday a year or so ago when only 14 persons were injured. At the heavy traffic cauders when an occasional pedestrian broke through the cordons he would merely receive a verbal rebuke. Now he is immediately stopped by the police. Trying to catch a train is the oldest excuse and one that was generally accepted, but not any more.

Nora Bayes recently opened in a play called "Queen of Hearts" and a

brisk dramatic writer suggests that Nora will wear crowns other than those on her teeth.

Anna Gould's husband, the Duke de Talleyrand-Perigord, has been amusing the reporters, male and female, and the news photographers with his displays of temper. The Duke, merely because he is the husband of a well-known woman, is considered of news importance. But when the scribes and snap-shooters approach him he threatens them with his cane. This has happened several times. Once it tied up traffic on Fifth Avenue. There is a certain reporter with an aggressive jaw who is noted for his firm stands. He will not be bluffed. He once choked an apology out of a big steel manufacturer who passed the insult. Anyway, he was sent to talk to the Duke, and met him coming out of a hotel. The Duke lifted his cane and started after him. The reporter did not budge and something in his eye told the Duke to resist. So he halted and turned about. The reporter pulled a flower from his coat lapel, tossed it at the Duke and cried: "Now that you've chased me, I'll chase you!" (Copyright 1922, By The McNaught Syndicate, Inc.)

WHERE THE AUTUMN WINDS ARE SINGING

Don't want any office that's underneath the sun. In this here Autumn weather it's most too good to rue. An' the game ain't worth the candle when all is said and done—Jes' leave me where the Autumn winds are singin'!

Whilst the sunshine is a-fallin' o'er the country, soon an' late, Jes' think o' speechifyin' on the stumps through the state! I'd rather go a-fishin', with a boy to dig the bait.

An' rest me where the Autumn winds are singin'! No legislatur' gets me—no Congress has the call: Don't have 'em fix my fences when Trouble lets one fall; I've come to the conclusion that I'm happier than all.

Restin' where the Autumn winds are singin'!

## A "Lost" Ball

Bobbie came home one day with a brand new golf ball.  
"Look at the lost ball I found on the links, daddy," he said.  
But daddy was suspicious. "Are you sure it was a lost ball, son?" he asked.  
"Surest thing, you know," replied Bobby with conviction. "I saw the man and his caddy both looking for it."—Legion Weekly.

## IF YOU ARE WELL-BRED

YOU plan all your social entertainments carefully, particularly your dinner parties, and invite only those people who are congenial to each other. You take into consideration the size of your rooms and the amount of help you will need.  
You see that your table linen is perfectly laundered, that your silver is clean and polished, and that all the food you serve is suitable, carefully prepared and attractively served.

## Elbe Martin

Ever time we read about tumultuous applause and vast throngs, we're reminded of all the hats we've lost on Bryant. We have favorite actors, favorite grocers, and favorite doctors, but we don't believe anybody ever had a favorite coal dealer.

## At Least a Chance

A small boy in a Chicago school refused to take part in a sewing lesson on the ground that it was beneath his dignity.  
"George Washington sewed," said the teacher, taking it for granted that every soldier has to do it at times.  
"You don't consider yourself better than Washington, do you?"  
"I don't know; time will tell," replied the boy.

Caylor: "I guess so. I've got a radio outfit, a still, a cocktail shaker, a corkscrew and a clucking dish. No, I haven't forgotten a thing."

Jewett: "No, he said I was so how-legged that I would be continually rubbing the paper off the walls."

**Many A Man**  
Who has a hard foot to fit complains that he can't find shoes that look neat with enough ball. They say "when they ask for wide shoes" the clerk always brings them big, clumsy shoes. I have a shoe (like cut shown) with a medium round toe that is really dressy and yet has the width — made of genuine kangaroo, welted oak soles and rubber heels. A real shoe for a real man — popularly priced at seven.
